

VALUE LUXURY STEAM CONFIGURATION

INCLUDES:

Soothing, relaxing steam
250 control in polished chrome
3199 steamhead
SMP-7 generator,
up to 250 cu. ft. adjusted room volume*
Generator pan & autodrain

STARTING AT

\$4005⁰⁰ msrp

*Larger adusted room volume (ARV) generator configurations available. Complete info and generator sizing guidelines on page 2.

Steamist's personalized steam experience... always at your fingertips.

Programmable, two-user 250 control with temperature profiles and selectable timer. Our built-in, patented dual-temperature sensor technology minimizes fluctuations in steam heat for added comfort.

A coordinating 3199 steamhead evenly distributes steam around you.

Cost-effective SMP-7 generator with limited lifetime warranty. Conservative on water and electrical use. Compact space fitting design. UL Listed.

Durable stainless steel water tank brings years of dependable service, a generator pan adds support and the auto drain purges the system after use.

Designer finishes available, additional \$50

Matte Black | Polished Nickel | Brushed Nickel | Polished Gold | Oil-Rubbed Bronze

*Larger adjusted room volumes require more steam, substitute SMP-7:

251-450 ARV = 10kw | SMP-10 | add \$500
451-550 ARV = 12kw | SMP-12 | add \$950
551-675 ARV = 15kw | SMP-15 | add \$1150
676-900 ARV = 20kw | SMP-20 | add \$3050
901-1100 ARV = 24kw | SMP-24 | add \$3350
1101-1350 ARV = 30kw | SMP-30 | add \$3650

GENERATOR SIZING

VALUE LUXURY CONFIGURATION INFO

Use the calculation form below to correctly size a Steamist generator for your steam room. Some adjustments will apply depending on wall surface, exterior wall locations and ceiling height.

Included is an example based on a 5' x 6' x 8' high room made with marble walls and one exterior wall in the shower space.

Contact Us directly for any questions or sizing help: 201-933-0700

VALUE LUXURY 0-250 adjusted room volume*		
SMP-7	7.5kW Generator*	\$2600
250-PC	Control w/3199-PC Steamhead	\$800
GPAD-240	Generator pan and Autodrain	\$605
MSRP TOTAL=		\$4005

1. DETERMINE ROOM'S CUBIC FOOTAGE

Measure and then multiply the Length x Width x Height (in feet) of your steamroom to determine the "Cubic Footage"

EXAMPLE (LxWxH = cubic footage)	YOUR CUBIC FOOTAGE (cf) (LxWxH = cubic footage)
5 x 6 x 8 = 240	___ x ___ x ___ = cf _____

2. DETERMINE ADJUSTED ROOM VOLUME (ARV)

Using the check boxes below, make adjustments to "Cubic Footage" to determine the "Adjusted Room Volume".

a. WALL MATERIAL, choose one

- | | | |
|--|-----------------------|----------------------------|
| <input type="checkbox"/> For ceramic or porcelain tile, glass or glass block, multiply cf by 1.35 | 240 x 1.35 = a. _____ | cf _____ x 1.35 = a. _____ |
| <input type="checkbox"/> For natural stone or marble, multiply cf by 2.0 | 240 x 2.0 = 480 | cf _____ x 2.0 = a. _____ |

b. EXTERIOR WALLS, choose one

- | | | |
|---|-----------------|---------------------------|
| <input type="checkbox"/> For one exterior wall, multiply a. x 1.1 | 480 x 1.1 = 528 | a. _____ x 1.1 = b. _____ |
| <input type="checkbox"/> For two exterior walls, multiply a. x 1.2 | | a. _____ x 1.2 = b. _____ |

c. CEILING HEIGHT, choose one

- | | | |
|--|-----------------|-----------------------------|
| <input type="checkbox"/> For up to 8' ceiling, multiply b. x 1.0 | 528 x 1.0 = 528 | b. _____ x 1.0 = ARV _____ |
| <input type="checkbox"/> For over 8' up to 9' ceiling, multiply b. x 1.15 | | b. _____ x 1.15 = ARV _____ |
| <input type="checkbox"/> For over 9' up to 10' ceiling, multiply b. x 1.3 | | b. _____ x 1.3 = ARV _____ |

EX. ARV = **528** ADJUSTED ROOM VOLUME _____

3. DETERMINE STEAM GENERATOR

Select a Steamist generator with an "Adjusted Cubic Footage" range equal to or greater than your "Adjusted Room Volume".

EX. ARV = GENERATOR 528=SMP-12 YOUR GENERATOR* _____

ARV RANGES | STEAM GENERATORS

0-250 ARV	=	7kw		SMP-7		included
251-450 ARV	=	10kw		SMP-10		add \$500
451-550 ARV	=	12kw		SMP-12		add \$950
551-675 ARV	=	15kw		SMP-15		add \$1150
676-900 ARV	=	20kw		SMP-20		add \$3050
901-1100 ARV	=	24kw		SMP-24		add \$3350
1101-1350 ARV	=	30kw		SMP-30		add \$3650
